

Elementary Classroom Cleaning and Health and Safety Protocols

Please be aware there is a general TCAL Kids Health and Safety Protocols that addresses the overall ministry protocols. This information will focus solely on the elementary classrooms.

- All volunteers and children over the age of 5 are required to wear masks at all times. We can provide a mask, if your child does not have one.
- Volunteers will wash hands often to ensure they are clean at all times. They will wear gloves if they need to provide care directly to a child's face or body.
- We will designate one volunteer to be the check-in volunteer to write child's name on clipboard attendance roster. We are taking extra precautions to keep your child safe.
- We do not expect elementary children to take full responsibility for social distancing, therefore, we will space them out at tables as much as possible and give reminders.
- All children will use separate supplies. Supplies will be minimal. We will ensure all used supplies are set aside after service to be sanitized appropriately.
- Toys have been limited in the classroom. Each service will have designed toys.
- The classroom will be fogged in between services and after services so all hard and soft surfaces, as well as furniture will be sanitized. The solution is safe and dries immediately upon contact.

Last but not least, our #1 goal is to love and care for your child like JESUS would!

WELCOME BACK!
